“Education is the Answer”
OFFICIAL SUPPORT FORM

**Putting solutions back into the community
to encourage community support, awareness and funding**

The organization below supports Smoke Free Society Education Corporation (SFSEC), a not-for-profit, 501(c)(3) tax-exempt, educational organization and center solely dedicated to providing education, awareness, prevention and cessation programs and facilities to help educate the public of all ages, especially children, on the hazards of smoking and the benefits of staying smoke/tobacco free and living a healthy lifestyle that can lead to increased productivity, cost savings and eliminating disability, disease and death caused by smoking and tobacco use.

Each day, in the USA alone, over 4,400 kids as young as 8 years old, will take their first puff on a cigarette and nearly 3,000 will become regular smokers. 1 out of 3 of them will die from a disease caused by their smoking. Unless we do something to stop this trend, over 5,000,000 young people who are alive today will die prematurely from smoking and using tobacco!
